SKILLS

- Programing: C#, JavaScript
- Frontend: HTML, CSS, JavaScript, Tailwind CSS, ReactJS
- Backend: ASP.NET Core, REST API
- Database: SQL Server
- Soft skills: Teamwork, Communication, Time management, Problem-solving
- Tools: GitHub, Postman, VS Code, Visual Studio, Figma

EDUCATION

- Ho Chi Minh City University of Foreign Languages - Information Technology
- Major: Software Engineer
- GPA: 3.05/4.0
- 2022 - Present

LANGUAGE

English

INTRODUCTION

- During my studies at Ho Chi Minh City University of Foreign Languages - Information Technology (HUFLIT) and through participation in academic projects as a Backend Developer, I have gained valuable experience in software development and effective teamwork.
- I am eager to learn from experienced professionals and apply my skills and knowledge to contribute to the company as a Backend Developer.

PROJECT

05/2025 - 07/2025

E-commerce Website SHNGear

Role: Backend Developer

- Developed backend logic for product CRUD operations using ASP.NET Core and SQL Server.
- Implemented APIs for product comparison, and pin-to-homepage features.
- Built admin-side endpoints to manage sliders and promotional banners.
- Applied authentication, data validation, and followed REST API standards.
- **Framework:** ASP.NET Core, ReactJS
- **Github:** <https://github.com/Waito3007/SHNGear>

01/2025 - 03/2025

E-commerce Website MERDI

Role: Backend Developer

- Implemented full CRUD operations for product management using ASP.NET Core MVC and SQL Server.
- Developed backend logic for wishlist functionality with user-specific data handling.
- Handled controller actions, data validation, and business logic following the MVC pattern.
- Utilized Git and GitHub for version control and collaborative source code management.
- **Framework:** ASP.NET Core MVC
- **Github:** <https://github.com/ComBiCha/E-commerce>
